## Financial Notices

## FIRST MORTGAGE

## Land Grant Sinking Fund

SEVEN PER CENT BONDS OF THE

## Houston &amp; Texas Central Railway Comp'y.

## Principal and Interest Payable in Gold in New York.

The undersigned offer to persons desiring a safe and profitable investment, a limited amount of the above Bonds at 90 per cent and accrued interest in currency.

The Bonds are secured by a Sinking Fund of 2 per cent per annum, and the mortgage now covers ONE HUNDRED AND FIFTY-FIVE MILES OF A THOROUGHLY BUILT AND FULLY EQUIPPED RAILROAD IN ACTIVE OPERATION, extending from Houston, Texas, in a northerly direction towards the Red River, where it is intended to connect with the Railroads now building from Lawrence, Kansas City and St. Louis, with a branch road to Austin twenty-five miles of which is now in operation. It also covers valuable prairie and timber-lands, to the amount of 6,400 acres for each mile of road built. The Bonds issued and to be issued are limited to \$30,000 per mile. NO BONDS ARE ISSUED EXCEPT UPON ROAD COMPLETED, EQUIPPED AND IN OPERATION.

Sneppard Knapp, Esq., and William Walter Phelps, Esq., are Trustees under the mortgage.

The Railway as built and projected passes through the most fertile and thickly populated portion of the State of Texas, and during the past three years has earned more than double the amount necessary to pay the interest and Sinking Fund upon its Bonds.

For further information apply to

JAMES ROBB, KING & CO.,  
 53 Wall st., New York.  
 J. S. KENNEDY & CO.,  
 41 Cedar st., New York.

## WE OFFER FOR SALE

A LIMITED AMOUNT OF

## City of Louisville, 7 Per Cent Bonds

HAVING TWENTY YEARS TO RUN, interest payable Semi-annually, on the first day of April and October, at the

## BANK OF AMERICA, in this City.

A Special Tax has been levied to meet the interest upon these Bonds, and the Sinking Fund for retiring the indebtedness of the City amounts to about two hundred thousand dollars per annum. The comparatively small debt, and the conservative policy which has always marked the management of the finances of the flourishing City of Louisville, make these Bonds one of the safest and most desirable investment securities now offered in the market. Any further particulars can be had on application at our office.

## TO RAILROAD CONTRACTORS

## Memphis, El Paso and Pacific Railway Co.

Office of the Chief Engineer Memphis, El Paso and Pacific Railroad Company,

## 66 EXCHANGE PLACE.

NEW YORK, June 8, 1869.

SEALED PROPOSALS will be received at the above office until September 1, 1869, when contracts will be awarded for the grubbing and clearing, grading, masonry, bridging, ballasting, cross-ties and track laying of the following portions of said railroad: First—The last fifteen miles on the first division of one hundred and fifty miles, between Jefferson and Paris, Texas, commencing eight miles east and extending seven miles west of the town of Clarksville in Red River County. Second—One hundred and fifty miles, embracing the second division, commencing at Paris and extending west to Palo Pinto County. Specifications, profiles, maps and plans can be examined after the 15th of August, 1869, at the Engineer's office at New York or Jefferson. Proposals must conform to the specification, which will be furnished upon application at either of the above places after August 1, 1869. Evidence of ability to complete contracts will be required and a per centage retained of estimates until each section of five miles is finished. Work upon the first division must be completed by March 1, 1870; the second division must be finished by October 1, 1870. Every facility will be furnished those wishing to inspect the ground on the line of the road, by application in person at the Engineers office in Jefferson. J. M. On the payment of Premiums a Rebate or Discount on the current rates is made in cash, as an equivalent for the Scrip Dividends of a Mutual Company. The amount of such Rebate being fixed according to the character of the business, gives to dealers a more just apportionment of profits than by the mutual system; and being made in cash, on payment of the Premiums, is more than equivalent to the cash value of the average Scrip Dividends of Mutual Companies. Policies issued, making loss payable in Gold in this City, or in Sterling at the Office of the Company's Bankers in Liverpool, if desired.

### THE MONEY MARKET.

Two questions are agitating Wall street about the money market. One is practical, the other speculative. The practical question is as to the propriety of giving power to the Treasury to make money tight or easy at will. As to the future movements of the rate of interest, it seems to be agreed on all hands that we shall have easy rates of interest, or at least a good supply of loans at 6 to 7 per cent, for some time to come. The reasons for this opinion are many. First, the accumulation of loanable capital in the financial centres is large and increasing. Secondly, the confidence to lend that capital is good. There is no apprehension of any grave financial dangers ahead. This is proved by the cheery confidence with which almost everybody in Wall street is predicting that we shall pay off fifty millions of our national debt this year. When the shrewdest observers declare that the national taxation is likely to produce fifty millions of dollars more than the national expenditure, there is at least reason to believe that these gentlemen do not look for any severe revulsion. On the contrary, the anticipation indicates that a prosperous year is probable. There are indeed many things which would tend to confirm this view. The bounty

of Providence is giving us the promise of a rich harvest. Our internal commerce will probably receive from this an impulse which will be increased by the fact that for a year or more great depression has prevailed. Such are some of the indications of general confidence, the revival of which is an indispensable condition of financial ease. It is true that the speculators who have of late manipulated the money market declare that it can be "controlled," and they do no small mischief to business by creating the fear of trouble ahead. But these men well know that they can do nothing so long as they cannot close the floodgates of the National Treasury or cause currency to be locked up there and withdrawn from the channels of the circulation. So long as capital is accumulating here, if confidence prevails to lend that capital, if the currency is not depleted by Government locking up greenbacks—then the money market may reasonably be expected to work easily.

But how will it be when, in September and October, the fall trade calls for currency and draws off capital from this centre? Almost everybody is asking this question, and for the moment the popular opinion is that we shall have a very active money market in the coming fall. As this opinion may tend to check the inordinate speculation which is springing up, we shall not try for the present to refute it. The money market has been more completely in the hands of speculators during the last six months than ever before in this country. In no European country would such high rates for money be tolerated as we have recorded of late. The evil is not in our want of capital but from defects in our machinery for circulating it—defects for which our national banks are, to a considerable extent, blamed. There is no doubt that before long some remedy for the evil will be found and applied. The money market troubles will no doubt give rise to very exciting discussions in the next session of Congress.

One of the most striking peculiarities of the recent stringency in money is that it has produced no fall in the prices of stocks. Securities of almost all kinds have risen, as money has risen, and the speculators in stocks have been able to pay high rates for money because of this rise in their securities. One set of speculators have thus helped the other. Money-jobbing has helped stock-jobbing and vice versa. But commerce meanwhile has languished and business men have failed to get the usual accommodation from the banks which these banks were chartered to give. They were so busy helping the speculators that they had no funds for more legitimate borrowers. The indications are, as we have said, that the manoeuvres of the money-jobbing cliques are over for the present. And whatever becomes of the prosecutions for usury under the law of May 1837, there is little doubt that the trouble is over for the present.

As to the Treasury and its power on the money market,

we cannot deny that it has been most judiciously exerted of late. To it we are indebted for the out-flow of twenty millions currency which has given relief to the loan market. It is true, however, that the previous locking up of thirty millions of currency brought on the trouble and gave the speculators the conditions without which they would have been powerless. If the Treasury did harm by locking up currency too rapidly, it has done good by letting loose that currency again and returning it to the channels of the circulation. As to the expediency of depositing this secret and omnipotent control over the money market on the officers of the Treasury, there can be but one opinion. It is an anomalous policy and should be got rid of as soon as possible, or at least its chief evil should be corrected and the exercise of all such powers should be guarded and kept free from corruption by greater publicity.

#### THE CENTRAL NATIONAL BANK DEFALCATION.

A better proof could not be given of the judicious choice which has been made of officers for our new National Banks than the very rare occurrence among them of defalcation and breach of trust. One of these painful and exceptional instances has recently been detected and has awakened almost equal surprise and sympathy. William H. Sanford, the Cashier of the Central National Bank in this city, was, it seems, one of the sufferers in the recent Mariposa speculation which terminated so disastrously for the holders of the shares, who had supposed that this highly speculative stock had ceased to be the foot-ball of Wall street, and had taken a permanent place among the solid securities whose value would be steadily but slowly and surely appreciated with the improvement of the property it represents. The particulars of the disaster which befel this stock are fresh in the memories of our readers and were detailed by us at the time. It is sufficient for us now to say that Mr. Sanford, like multitudes of other victims, thought the decline was temporary, and did not wake up to the real state of the case until the final crash had come and had left him the loser of one hundred thousand dollars. To keep his account good with his brokers he seems to have placed in their hands securities of which the bank was the depository and which belonged to various customers of the institution, chiefly to persons and banks outside of the city. Goaded almost to madness by the discovery that his loss was irretrievable, this miserable delinquent, placed as he was in peril of the most severe punishment from the laws of his country, obtained leave of absence from the bank, and, before his crime was found out, put himself beyond the reach of pursuit, and is now supposed to be in France or South America. The unhappy family are left quite destitute, and no trace seems to have been left by which he could be followed and brought back to justice.

Such are the chief facts of this painful case which has inflicted a loss on a banking institution of the very highest credit, and has swept away a part of the surplus which belonged to the stockholders, involving not only a crime which has blasted the career of a man heretofore stainless and respected, but has also grieved and shocked beyond measure his wide circle of friends and has plunged his family into the depths of poverty. There are two or three lessons of a general nature which we should not omit to deduce from the event.

The first is the necessity of enforcing on all our bank officers the strictest prohibition of speculation. Let the directors of every national bank adopt a rule that any officer or clerk discovered speculating in the stock market, either with his own money or not, shall be instantly dismissed without being allowed to resign. Such a rule might, it is true, be evaded. But the men who would evade it are just the sort of specu-

lators to be detected in some other way, if the directors and the other officers of the bank do their duty. The chief effects of this prohibition would be felt by such men as Sanford, who are self-respecting, frugal, honest, but anxious to be rich, and tempted by the success of others, to try to draw a prize in the Wall street lottery. When such a man is tottering on the brink of his first breach of trust and shrinks with the sensitiveness of a half-awakened, half-paralyzed conscience from taking the fatal plunge, let him have at least this one chance to rescue himself. Let him have the knowledge that if discovered he will be ignominiously discharged from his place and will find it impossible to get another.

But it may be said that the brokers, through whom these bank officers must do their surreptitious speculation, would keep the matter so secret that the risk of detection would be almost annihilated. This is not so certain. By a law of the last session of Congress, the broker who is a party to such defalcations as this of Sanford's, is liable to severe penalties, and it is not possible that perfect secrecy could be preserved in any such transactions. Somehow or other the affair would leak out, and the delinquent would be all the time in danger. In such matters it is of great importance to raise barriers against the first offence. When a bank cashier or a bank clerk has once gone wrong, it is easy to repeat the offence. Besides, the first breach of trust involves usually a small amount, easily replaced, though perhaps urgently wanted. Yet if yielded to, the temptation will grow by that it feeds on till like a canker, it destroys and ruins. Sanford would not now be a fugitive from justice after blasting his own prospects and ruining his family, had he resisted the first temptation, which, involved probably a trivial sum. Public opinion will support our banks in the enforcement of the penalty of dismissal which we have suggested as the proper punishment for a bank officer or clerk who is found guilty of the crime of speculating. And except some such safeguard is given, the banks must not be surprised, if they are looked upon by some of their stockholders and dealers with anxiety not altogether devoid of distrust and fear.

There is one other point which demands notice. Mr. Sanford's accounts with the bank were all in the most perfect order. The books of the institution showed not the least indication that anything was wrong. And still he was a defaulter to an amount one half of which would have been regarded by him as an ample fortune. For aught we know, similar losses might have taken place before, but were retrieved in time to prevent discovery. Now it will be impossible to persuade the public that there is not something radically defective in this loose way of keeping bank accounts. If a bank officer can show a clean record on his books after he has made away with \$100,000 of funds belonging to his customers, it is high time that some more effective checks were devised for keeping such violent temptations away from fallible men. It will be well if this defalcation in the Central Bank, which is one of the best managed institutions in the city, should draw the public attention to this matter, and should cause some better guarantee that the records and books of the bank should give such an account of the funds in the hands of the officers that defalcations may be more easily detected and more effectively prevented.

#### THE COMING CHINESE.

The immigration from Europe has been in a westward line and millions have come from that line of population to occupy the virgin soil of the United States. These millions now seem likely to be supplemented by other millions coming from the West and meeting the great tide that has already poured in upon us. The planting of American interests on

the Pacific coast and the discovery of gold in California at once arrested the sluggish thought of Asia and turned the attention of China to this country. Many years ago the Chinese began to come, slowly at first and then in larger numbers, until a few days ago a single steamer landed 1,200 at San Francisco; and only week before last, the Chinese merchants of San Francisco, on the occasion of meeting the Congressional Committee of Ways and Means, urged upon them the importance of doubling the subsidy to the Pacific Mail Steamship Company so that it might engage in a bi-monthly service in order to accommodate the growing business between China and the Pacific coast of the United States. There are, at least, 200,000 Chinamen in this country. They have spread all over California, their outposts are carried even East of the Mississippi. Last week 500 went down the great river in quest of a new home in Louisiana. The population of China is variously estimated at from 400 to 500 millions. It is only within six years that the Chinese emigration has gained large proportions. Persecuted and evil entreated they have been, but this has not kept them back. Harsh laws and a harsh public opinion have met them, but they have borne all and quietly asserted their right to labor. That they are needed, the immense acres of uncultivated land that we have, give proof. That they are frugal, industrious, teachable, patient and intelligent, even their enemies concede.

When the Chinese came to California and encountered the hostility that met them, they found it necessary to organize themselves into companies for mutual protection. There are six of these in San Francisco, directed by Chinese merchants of standing and influence. Each company represents a district in China, and emigrants join the company which covers the place from which they come. The companies procure labor for their members and take care of them in sickness and when unemployed. They advance money to bring out emigrants, and then take the stipulation of the emigrant for the speedy repayment of the sum advanced. This is briefly the system on which the false charge of a sort of peonage or slavery has been based. The Chinese quickly made themselves popular as house servants. They are neat, orderly, skillful, inclined to remain in a place, have no "followers" and are not troubled with a desire to attend religious services, either before breakfast or after dark. The ladies admire them so much as servants that they will be likely to change the public sentiment of California in regard to their civil and political relations. Already housekeepers at the East, wearied and vexed with the inadequate service rendered by our household dependents, turn with longing eyes to the Chinese as auspicious of a better and brighter day in the domestic economies. Once shown how to do a thing, and why, Chinamen need no further instruction. Chinese art and labor are the perfection of imitiveness. They not only labor in houses, but they are book-binders and printers, setting type readily in a language they cannot read; they are careful and extraordinarily skilled tailors; they manipulate the tools of the designer and the carver; they handle the most delicate labor-saving machines with address and intelligence. The Pioneer Woollen Mills were once burned because they employed Chinese labor; now they work in the same mills unquestioned. In gangs of street laborers they were mobbed a year ago; now they work in San Francisco streets without the protection of the police. Quiet, peaceful and persistent, they have disarmed much opposition. Under State enactments they have paid a license tax of four dollars a month for the privilege of working in the mines, besides other taxes they have paid. Once the Legislature imposed on them a special police tax of \$5 a month, but the Supreme Court pronounced it unconstitutional. Nearly all of the Chinese read

and write their own language. They are anxious to acquire our language, and they send their children to the State Schools.

The cost of Chinese labor is one of its great recommendations. The Chinaman will live, and save, and thrive on the starvation wages of other laborers. They can work for one-third the cost of European labor, so that gold mines which yields \$7 per ton can be made productive where white labor halts when the result is less than \$20 per ton. But it is as the railway "navy" that the Chinaman has made his mark. The builders of the Central Pacific Railroad hesitated long before they employed him. He turned up less earth at a shovel full than the Irishman did, but he turned up more shovel fulls in a day. He knew nothing of strikes. He never indulged in sprees or thirsted for a "row." A California railway contractor, who has worked laborers of many nationalities says, that these Asiatic laborers are the most serviceable and least troublesome of any to be found on the Pacific slope. They are promptly on the ground to begin work the moment they hear the signal, and labor steadily till notified that the working hours are ended. They will, ere long, turn the sod and build the embankment, on other lines, across the continent, and upon the numerous roads which are to be constructed in the Southern States. They will yet be familiar faces in New England factory towns.

The political and religious relations of this incoming Chinese population are foreign to our consideration of the subject. We look at the question in its bearings upon population and in the grand results to be effected in the industrial development of the country. Railways and canals, wharves and docks, public buildings are to be constructed. Farms are to be cultivated. The hundreds of millions of acres now waiting culture are to be made productive. Is it not the part of wisdom to execute these enterprises at a cost for labor of one-third that which is now paid? Great projects languish because of the cost of execution, and here come to us naturally and easily the willing hands and the eager wills. They come just fast enough to admit of their assimilation with the various masses of people that compose our population, and which are rapidly acquiring homogeneity. They can live in any part of the land, but they tend rather to the Southern portion of the Union as more nearly allied to the climatic influences to which they have been habituated. There is a movement now in progress at the South to tempt Chinese emigration thither. It meets with a singular unanimity of approval. It is regarded as the means and the hope of a new and higher prosperity than has ever yet visited those States productive and prosperous as they have been. To the convention which represents this movement, a report has been made that emigrants in lots of 50 or upwards can be brought from California for \$50 each in gold, and from Hong Kong to San Francisco for from \$80 to \$100 in gold. A Chinese contractor who has brought 30,000 laborers to the Pacific Coast, says that they are paid in California 90c to \$1.10 in gold, per day, that they will come from San Francisco to Memphis and work for \$20 a month, while if brought out fresh from China, they may be had for from \$10 to \$12 a month. He remarked, however, that at these low wages they were likely to abandon their situations for higher wages, unless security was exacted of them. Chinese companies organized in the South, with those in California might arrange the proper security. But of this movement we shall speak again.

#### THE PUBLIC DEBT AND FINANCES OF NEW HAMPSHIRE.

The public debt of New Hampshire has been created solely for war purposes, and on the 1st day of June, 1869, amounted to (bonds \$2,849,200, and notes \$321,810) \$3,

171,010. The State also holds trust funds to the amount of \$42,925 22. The following statement describes the bonded debt:

*Six per cent Loan of 1861*.....\$705,200

Authorized by Act of July 3, 1861. Issued \$1,000,000, in 100s, 500s and 1,000s. Coupons January 1 and July 1, and principal July 1, 1866-1875 inclusive, the annual payment averaging about \$100,000. Up to date \$294,800 has been paid, and \$100,000 became due July 1, 1869. All these bonds bear date July 1, 1869. Payable at Boston or Concord.

*Six per cent Loan of 1862*.....\$294,000

Authorized by Act of July 9, 1862. Issued \$300,000 in 500s and 1,000s. Coupons January 1 and July 1, and principal July 1, 1876-1878 inclusive. These bonds also bear date July 1, 1861, the act authorizing them being supplemental to that of July 3, 1861. Payable, interest and principal, at Boston or Concord.

*Six per cent Loan of 1864*.....\$600,000

Authorized by Act of August 19, 1864, and bonds dated September 1, 1864. Issued \$600,000 in 1,000s. Coupons March 1 and September 1, and principal—\$450,000 September 1, 1884, and \$150,000 September 1, 1889. Payable at Boston or Concord.

*Six per cent Loan of 1866*.....\$1,250,000

Authorized by Act of July 7, 1866. Issued in 100s, 500s and 1,000s. Coupons April 1 and October 1, and principal in sums of \$250,000 annually, October 1, 1870-1874, inclusive, both payable at Boston or Concord. The act as above, and a supplemental act of June, 1868, authorized the issue of \$1,800,000, so that there remained in the Treasury June 1, 1869, \$550,000 subject to issue, and which will probably be used in taking up the short loans which mature at various dates prior to January 1, 1870. These are in the shape of notes bearing interest (6 per cent \$28,810, and 7 per cent \$293,000) \$321,810. Under the law of 1868 the Treasurer has also the authority to hire all the money that will be needed for the temporary use of the State, so that no further legislation will be necessary.

Of the State's claims against the United States for expenditures for war purposes, amounting to \$1,032,527 45, there has been allowed and paid \$1,000,618 06, leaving a balance still disallowed of \$31,908 39.

The population of New Hampshire in 1860 was 326,073, which was 11.74 per cent increase from the next previous decennial census, or 1.17 per cent per annum. The population is now estimated by the State Treasurer at 350,000, showing an increase in nine years of 23,927, or 7.34 per cent. This estimate is based on a reduced rate of increase, and is probably nearly correct, the retardation to the extent shown being due to the withdrawal of large bodies of troops from civil life from 1861 to 1865. The war debt, as above exhibited, divided among the existing population is thus only \$9 06 per capita.

The value of taxable property in 1868 was (real estate \$69,344,903, and personal property \$79,720,387) 149,065,290. Compared with the war debt of the State this amounts to one of debt to every \$47 09, or 2.12 per cent of valuation. The valuation of 1858 was \$84,758,619, the increase in ten years having been \$65,306,671, or 78.23 per cent. The valuation of 1868 has probably been based on a nearer approximation to market rates than that of 1858, and hence the enormous addition to the sum total. The valuation of 1868 gives \$425 90 to each inhabitant.

The rate of taxation in New Hampshire is 4 per 1,000 on the valuation. The amount levied for the service of 1869-'70 will hence be \$596,261 16. This rate covers taxes of all

kinds levied for State purposes. There is very little delinquency in this State, the whole sum of the taxes of 1865-'67 and '8 delinquent on June 1, 1869, having been only \$1,181 54, an infinitesimal per centage on the amount levied.

The following is a synopsis of the revenue and disbursements of the State Treasury for the year ending May 31 1869:

REVENUE.—Cash June 1, 1868, \$18,684 72; taxes of 1866, \$6 25; taxes of 1867, \$1,035 63; taxes of 1868, \$623,340 63; savings bank tax, \$99,017 58; railroad tax, \$215,615 00; civil commissions, \$630 00; copyright of vol. 46 N. H. Reports, \$100 00; tax on foreign insurance companies, \$100 00; rent of store-house, \$300 00; war claims, \$42,158 21; interest, \$4,785 65; loans, (school fund \$25,050 00, notes \$427,660 00, and bonds \$242,500 00) \$695,160 00. Total, \$1,702,333 67.

DISBURSEMENTS.—Executive department \$3,918 80; Secretary's Department, \$3,853 29; Treasurer's Department, \$3,657 98; Adjutant-General's Department, \$9,550 74; Department of Public Instruction, \$3,604 40; Legislative Department, \$47 362 57; supreme judicial court, \$11,541 52; probate courts, \$7,685 65; State library, \$1,549 69; compiling provincial papers, \$3,501 40; State house, \$2,757 22; N. H. Asylum for Insane, 28,888 39; education of the blind, \$3,674 84; education of the deaf and dumb, \$2,012 50; reform school, \$12,182 92; State Prison, \$10,374 25; volunteer militia, \$35,759 77; military expenses, \$6,049 29; White Mountain roads, \$2,600; miscellaneous, \$5,928 11; savings' bank tax \* \$99,917 58; railroad tax \* \$100,138 61; interest, \$225,436 02; payment of bonds, \$850,100 and of notes, \$139,254. Total, \$1,627,299 54. Cash, May 31, 1869, \$75,034 13.

Deducting the receipts from bonds and notes, &c. (\$695,160), the revenue amounted to \$1,007,173 67, and the payments of bonds and notes (\$989,354), the disbursements amounted to \$637,945 54, which last named sum paid the ordinary expenses of the State, the distributions to towns, and interest on the bonds and notes outstanding.

The condition of the Treasury June 1, 1869, is shown in the following statement:

LIABILITIES.		ASSETS.	
Bonds ..	\$2,849,300 00	Cash in Treasury.....	\$75 037 13

The liabilities, less assets, June 1, 1868, were \$3,487,411 97, and June 1, 1869, \$3,136,879 33, showing a reduction of liabilities in the year of \$350,532 64.

In New Hampshire the township system is carried out to its full extent and there appears to be very little cohesion of the one with the other, the counties being merely so many court divisions. The towns, indeed, are so many little republics, managing their own affairs and disbursing their own revenues. It thus happens that if desirous of acquiring a knowledge of the exact measure of their burdens and abilities we must canvas the affairs of each town within itself, and so the returns of each are published separately by the State Treasury Department. It is impossible, however, to transfer these, from 230 towns, to the CHRONICLE, and hence we cluster them in counties, naming the number of towns included in each, the amount of their debts and assets, the highest and lowest rate of taxation in the towns of the counties named, and the highest and lowest tax on each poll therein. The following is the county summary:

\* Divided to the several towns of the State.

The highest taxed town in the State is Thornton, in Grafton County, and the next highest, Gosport, in Rockingham County; and the lowest taxed town is Cambridge, in Coos County. The net reduction in town debts during the years 1868-69 was \$77,622 04, the increase having been \$151,764 06, and the decrease \$229,386 10. Almost the whole of these debts have been incurred for permanent improvements, which have tended to the rapid development of industry and wealth in the State.

[From our own Correspondent.]

LONDON, Saturday, July 3, 1869.

Notwithstanding the unfavorable weather, a moderate amount of activity has prevailed in the various commercial markets this week and in most instances prices have been rather firm. The transactions have, however, been restricted to real wants, speculation being still dormant. Taken as a whole, indeed, business, although quiet, is fair; but has been wholly shorn of the speculation which has inflated it of late years. The difficulty of obtaining advances except on good security, and the extreme caution shown by the banks, are keeping trade within its legitimate bounds, and had it not been for the foreign loans brought forward this year and for the readiness with which Five-twenties have been purchased in Europe, the increase in our foreign trade would not have been so considerable this year as is indicated by the official statement.

The opinions which I have heretofore repeatedly expressed with regard to the growing crops, are this week endorsed in a letter written by Mr. Mechi, who has for many years had a model farm in the county of Essex. His letter agrees so entirely with all that I have been able to ascertain upon the subject, that I am led to give an extract from it. He says that "notwithstanding cold nights and an absence of sun, which will delay our harvest three weeks as compared with the unusually early one of last year, we have evidence that the gross total production of food animal and vegetable will probably exceed considerably that of last year. Wheat may be less in quantity, quality and weight, but peas, beans, oats, potatoes and perhaps barley, will be in excess, especially peas and beans. Last year there was a ruinous deficiency of meat-making products. The 22 1/2 million acres of permanent pasture (one-half the agricultural area of the United Kingdom) yielded a wretchedly deficient crop, and caused a heavy national loss, while nearly 10 million acres of root and green crops and artificial grasses fell sadly short of an average crop. Hence our small supply and high price of home-grown meat, &c. The large area of cottage and general garden was also very deficient in yield. This year all this is reversed, and we are blessed with the promise of abundant grass and other vegetable products, which must have a happy influence on the quantity and price of home-grown meat, milk, butter, cheese and vegetables. Supposing that we lose a trifle on our wheat area—between three and four million acres—great will be our gain on the 40 million acres of other products. Harvest in Essex will probably commence about the 1st of August in the early districts, and become general towards the 10th. Heavy and deep soils have the best of it this year, which is always a happy event for the country at large."

The wheat plant is still in bloom, and although the prospect varies considerably in different locations, it is, on the whole, good, and some good wheat will undoubtedly be secured. There will, however, be a greater variety of quality than last year, but if we secure a fair average crop a most satisfactory result will have been attained. An average yield will prevent wheat from getting dearer, because our prospective imports are likely to be large; while the yield of spring corn and of roots, which was so deficient last year, will, as we have heretofore stated, be heavy. Bread is likely, therefore, to remain cheap, while wheat, which has been so dear, promises, as Mr. Mechi states, to be obtainable on easier terms before the year closes.

Our imports of wheat last week were decidedly larger than for some weeks past, but the total importation for the season is still about 8,500,000 cwt. less than in 1867-'68. The statement relating to the imports and exports of wheat and flour into and from the United Kingdom is subjoined:

Messrs. Pixley, Abell & Langley, the bullion brokers of this city, have announced that they have admitted as partner Mr. Francis Barron Blake, of the firm of Blake Brothers & Co., of Boston and New York. The firm is now called Pixley, Abell, Langley & Blake, and it is proposed to carry on, in addition to the bullion business, a mercantile, banking and commission business with the United States.

The Board of Trade returns for May and the five months ending May 31 has been published this week. Contrary to expectation the statement is of a favorable character. The many complaints heard of late respecting the state of trade foreshadowed a different result. In fact, either the Board of Trade returns are wanting in veracity, or else the reports from the manufacturing districts misrepresent the actual condition of affairs. There is no doubt that business is slack, and it is unquestionable that it has been shorn of the speculation which has inflated it for so many years past. It must, however, be contended that a steady legitimate trade is doing, and that on recent transactions

there has been a fair margin of profit and but little loss. I am inclined to indorse the Board of Trade returns, and for the reason that the goods' traffic on the principal lines in the manufacturing districts has naturally increased this year, the receipts on the London and North western being especially large. Now the London and Northwestern, which is undoubtedly the best and perhaps the most important of our railways, embraces a large portion of the Midland counties and of Lancashire. As it approaches London, or rather just on the Northern skirt of the metropolis, there is a branch which leads to the commercial docks at the east end of London, so that a large amount of goods is sent by it from Lancashire, Yorkshire and Staffordshire for shipment to the East, to the Continent and elsewhere. On the average the increase on this line alone is about £3,000 per week as compared with last year. It is, however, remarkable that the passenger traffic has diminished, which may partly be accounted for from the fact that the telegraph is more freely made use of than before. In May the exports of British and Irish produce and manufactures were valued at £16,316,540, against £14,670,015 in 1868, and £15,936,864 in 1867; while in the five months ending May 30 they amounted to £74,744,620, against £70,668,108 in 1868, and £15,936,864 in 1867. For the month, therefore, there is an increase of about £1,640,000, and for the five months of rather more than £1,000,000, as compared with last year. The computed real value of our principal imports in April was only £17,868,517, against £21,969,564 in 1868; and in the four months £66,949,136, against £68,416,563 in 1868. It follows, consequently, that while our exports have increased, a considerable falling off has taken place in the extent of our imports. With regard to our exports, there is an increase of £120,000 in apparel; of £53,000 in earthenware and porcelain; of £100,000 in haberdashery and millinery; of £212,000 in hardware and cutlery; of £40,000 in saddlery and harness; of £231,000 in machinery; of £1,615,000 in iron of all kinds; of £203,000 in tin-plates; of £100,000 in oilseed; of £21,000 in silk manufactures; of £100,000 in woolen cloth; of £170,000 in carpets and druggets, of £1,870,000 in worsted stuffs. On the other hand, there is a diminution of £644,000 in the exports of woolen yarn; of £130,000 in linen yarn, and £1,000,000 in cotton yarn.

The decrease in our imports has been caused chiefly by a reduction of £1,000,000 in the value of the wheat received from foreign parts. Coffee shows a falling off of £200,000, and cotton of £1,900,000. On the other hand, wool shows an increase of nearly £2,000,000.

The exports of railroad iron in May were 87,392 tons, against 54,838 tons; and in the five months, 320,745 tons, against 233,769 tons last year. To Russia they have amounted to 52,714 tons, against 12,230 tons; to Sweden, 2,890 tons, against 413 tons; to Illyria, Croatia, and Dalmatia, 12,975 tons, against 3,810 tons; to the United States, 141,634 tons, against 112,608 tons; to Peru, 9,306 tons, against 770 tons; to British North America, 12,992 tons, against 5,616 tons; to Australia, 9,901 tons, against 4,678 tons. The shipments to India have declined from 42,818 tons in 1868 to 3,132 tons in 1869. The cotton trade has been very active this week, the sales having reached 102,200 bales, of which the trade have taken 72,230 bales. The stock in Liverpool is only 332,420 bales, against 603,180 bales last year; but there being a considerable supply of produce afloat, the visible supply is now 1,199,351 bales, against 1,357,279 bales in 1868. Hence in the visible supply, there is a deficiency of about 158,700 bales, which may be looked upon as a rather serious matter when it is borne in mind that the American crop will be late, and also that the shipments from India are likely to be small during the present month. Messrs. Smith, Edwards & Co., in a circular just issued remark:

The prospects of our market are at present of the most alarming kind to the consumer; the excessive deficiency of supply becomes each month more apparent, and the difficulty of finding over the interval between this and the arrival of next season's crop is more obvious. Indeed, we fear it cannot be denied that the trade have to contend with the most trying emergency since the close of the American war.

The latest advices from India report rather more favorably respecting the growing crop of cotton.

In the wool trade there has been a moderate amount of activity; but there is still much caution being observed. Goods suited to the requirements of the autumn and winter are beginning to attract attention.

The iron trade is rather quiet; but the demand for railway bars continues good. Buyers of rails evince some anxiety to place contracts for early delivery, but it is evident that if they attain their object higher prices must be paid for summer delivery; and all the great ironmasters are of opinion that prices will advance in the early part of the new quarter. Large quantities continue to be sent to the American and Russian markets, and ships are also wanted at the local ports to convey iron to Peru, with which country trade of late has improved, and as the railway system is only in its infancy on the south-west coast of America, makers are in hopes of large quantities of rails

and other material being obtained from this district. Continental inquiries have not increased to any material extent, but as the Belgian and French houses are reported to be full of engagements additional contracts are looked forward to on continental account.

Now that the half year has been passed, the demand for money has become very quiet, and a reduction to 3 per cent is looked forward to before long. In the open market, indeed, choice paper is taken as low as 3½, and, in some instances, 3 per cent, so that with fine weather, an increase of ease may quite naturally be expected. The demand for money for commercial purposes is very quiet, and at present the financial establishments of Europe seem to have but little necessity to borrow largely. There is, however, the prospect that some fresh foreign loans will be introduced before long, Portugal and Turkey having already concluded their arrangements for raising further sums. The following are the prices of money, compared with those of last year:

The Consol market has been very quiet, and a great want of business has been apparent in all departments of the Stock Exchange. There has, however, been a fair degree of firmness, several foreign securities and Five Twenty bonds having realised higher quotations. The following were the highest and lowest prices of Consols, and the principal American securities on each day of the week:

The following relates to the state of trade at Manchester:

A very steady confident feeling has existed in this market throughout the week, and considerable animation without any excitement has prevailed. Prices have continued to advance, and are now decidedly

higher than they were on Tuesday, but the advance asked has had a decided effect in curtailing business to-day. Considering how large a business has been done, and the rather extensive contracts which spinners and manufacturers have entered into, there has been less excitement than might have been expected, and than would probably have occurred, had it not been for the unpleasant knowledge that little or no profit to producers will be the result of all the sales which have been made. Although prices have been steadily advancing, both spinners and manufacturers have been ready and willing sellers whenever they could get an advance at all commensurate with that which has taken place in cotton. There seems to have been a general desire on their part to get well in order, so long as the demand lasted. The business done in June was large, and it is generally understood that the consumption of cotton has increased since Whitsuntide. The arrivals in Liverpool have been delayed, and naturally enough prices have rapidly advanced. This led to a large business here, but as the shipments to foreign markets continue to be extensive, it seems problematical whether the advance obtained here will be supported abroad. Some important buyers, adopting these views, have abstained from any large operations. Although, as is usually the case in an advancing market, confidence in prices is general at present, a change of opinion might occur any day, and prices be influenced accordingly.

#### English Market Reports—Per Cable.

The daily closing quotations in the markets of London and Liverpool for the past week, have been reported by submarine telegraph as shown in the following summary:

**London Money and Stock Market.**—Consols have ruled about steady the past week. United States bonds have ruled firm, and a slight advance has been established in the quotation. Railroad Shares have been better, and the close to-night is somewhat higher than a week ago. U. S. bonds at Frankfurt have sympathized with the London market, and close a little higher than a week ago.

FRIDAY, July 16, 1869, P. M.

THE MONEY MARKET.—At the beginning of the week there was a renewal of the efforts to make money stringent, some bankers holding their funds out of the market while means were employed for bidding up the rate of interest. The effect, however, was brief, a few transactions being made at 7 per cent gold, after which the market relapsed into a condition of comparative ease. The last bank statement reflected a very material change in the condition of the banks. While there was further contraction on the loans of \$2,900,000, the deposits showed an increase of \$3,200,000, the legal tenders a gain of \$2,000,000 and the specie line an increase of \$6,700,000. These changes show a very large addition to the surplus of lawful money reserve, and have had the effect of producing a much easier position of the banks. The Treasury has contributed toward an easier condition of the market during the week. Its purchases of bonds on Wednesday and Thursday involved the disbursement of \$4,750,000 of currency. Next week about \$3,500,000 will be disbursed in the same way, while \$1,300,000 will be

received by the Department against sales of gold. There has been some disappointment at the non-receipt of currency from the West.

The grain movement has continued active and large amounts have been sent East, which has prevented the forwarding of currency by the Western banks. The gain of the banks has thus been drawn almost exclusively from the Sub Treasury; and the improvement in their condition being consequently below what was expected, there is apparent in some quarters a strong desire to renew efforts to artificially tighten the market. For the moment the odium thrown upon operations of that character, by the indictment of several bankers for violations of the usury laws, has a tendency to discourage such expedients.

The discount market has been quiet, though rather more active than last week. The banks are not prepared to take any considerable amount of paper and private lenders are not in the market. Prime names range at 8@10 per cent.

UNITED STATES SECURITIES.—The bond market has been unusually active and prices generally higher. The large purchases of bonds by the Treasury have been productive of a good deal of speculative activity, which has run in the direction of higher prices. The advance in prices consequent upon the large purchases of the government has of course drawn a certain amount of bonds upon the market; but this additional supply has barely equalled the amount which has gone into the Treasury. Prices range generally higher than a week ago, both in the home and foreign markets. The extraordinary quotations for Five twenties, especially of the later issues, have induced some changing of securities. Ten-forties and Currency Sixes not having advanced in proportion to other securities, there has been a certain amount of selling of other bonds to employ the proceeds in the lower-priced stock. In many instances insurance companies, banks and savings institutions are able to realize 8@7½ per cent profit upon the cost of their bonds by exchanging Five-twenties for Currency Sixes; and these exchanges would be more numerous but for an idea that the large purchases of the government may induce a further rise in the former.

The following are the closing prices of leading government securities, compared with preceding weeks:

STATE BONDS have been active during the week, particularly on North Carolinas and Tennessees, which have fluctuated quite widely, though both have been pressed for sale by reason of the unsatisfactory condition of the States' finances. Both States have issued large amounts of bonds in aid of projected railroads. In North Carolina a suit has been instituted, involving the validity of a portion of the new bonds authorized by the Legislature, and similar suits, it is reported, are to be brought in Tennessee. Whatever may be the results of these suits, it has the effect of discouraging holders. Virginias have been steady at 57@57½ for old, and 61@61½ for new. All the list of Southern bonds has been strong, and South Carolina Sixes, new, have advanced one per cent to 67.

RAILROAD AND MISCELLANEOUS STOCKS.—The stock market continues on the whole dull. As usual after a crisis the late heavy fall in prices has been followed by a general caution among operators, while money has been incapacitated through their losses for taking risks. The only feature of interest has been a very active speculative movement in the Vanderbilt stocks. We say speculative, for there is no investment demand for them at current prices. In both New York Central and Hudson River the operations have been very large, arising mainly from the speculative position of the stock, and apparently not connected with any conclusive arrangements respecting the terms of consolidation of the two roads having, as far as known, been yet agreed upon. New York Central has sold as high as 214 and Hudson River up to 185½. Of course the general market sympathized in tone with the special firmness of

these stocks, and prices close 1@3 per cent above our last quotations. The range of prices on the leading stocks during the week has been as follows: New York Central, 195@214; Hudson River, 163@185; Lake Shore, 104 1/2 x. d. to 109 1/2 with dividend; Rock Island, 116 1/2@119; St. Paul, 74 1/2@78 1/2; Pacific Mail, 82 1/2@90 1/2.

THE GOLD MARKET.—Go'd has been dull and neglected, so far as regards speculation. The premium opened strong, under an impression that the week's shipments of specie would be liberal, and the price touched 137 1/2; there has been, however, a partial disappointment of this expectation, and at the close the price is 135 1/2. It is not easy to explain the speculative languor of the market, except upon the supposition that the larger holders are willing that the tone of things should be such as to tempt "short" sales until the period for an active export movement sets in. The "carrying" rate has ranged at 5@10 per cent.

The fluctuations in the gold market, and the business at the Gold Board during the week closing with Friday, are shown in the following table:

—**RAILROADS IN GEORGIA.**—Railroad enterprise is active in Georgia. The road from Milledgeville to Macon, completing the Augusta and Macon Railroad, will be built immediately. Arrangements have also been made to build the road from Augusta to Port Royal S. C. The Georgia Railroad Company have agreed to indorse the bonds of the road. The survey of the long-talked-of Northeastern Railroad, from Athens to Clayton, in Rayburn county, connecting with the Tennessee roads, and making a continuous railroad from Augusta to Knoxville, has been ordered by the Georgia Railroad. The Macon and Brunswick Railroad will be soon completed, and the extension of the Southwestern Railroad to the Florida line is also under way. The feud between the Augusta and Columbia and the South Carolina Railroad has been settled, and the trains of both companies now come and go between Columbia, Charleston and Augusta.

—Negotiations have been in progress for some time for the purchase of the Southwestern Railroad and branches by the Central Railroad and Banking Company of Georgia. The Savannah Republican says that the bargain and transfer have been perfected, the entire interests of the Southwestern road having passed into the possession of the Central Company on the 24th ult.

—The Frederick and Pennsylvania line Railroad Company has issued \$200,000 worth of coupon corporate bonds in sums of \$200, \$500 and \$1000, bearing interest at the rate of 6 per cent per annum in currency, payable on the 1st of June and December. The company has endorsed these bonds with a gold bearing interest—or its equivalent—of 6 per cent, and they are exempt from corporation and county tax.

**RAILROADS IN MINNESOTA.**—A letter in the Chicago Tribune give some interesting information about railroads in Minnesota. At the present time nearly four thousand laborers are at work on the railroad in that State. One thousand men have just been taken by propeller from the lower lakes and transferred to the railroad now building from the head of Lake Superior to the Mississippi River at St. Paul.

On the St. Paul and Pacific Railroad, ninety miles west of Minneapolis are under contract. The laborers come from Sweden and Germany. Agents of the Company have circulated in those countries of Europe descriptions of the choice lands in the Big Woods and the Kandiyohi prairies beyond that belt of forest; by similar personal influence, parties of emigrants have been billeted from their native villages to the particular fraction of land destined to be a Minnesota homestead; and the protection of the Company is not withdrawn for a moment of the long journey. Even after arrival in Minnesota the Company's buildings are arranged for their temporary occupation, while more permanent shelter is provided in the immediate section of the road under construction and of the lands to be occupied.

They expect in Iowa that every tier of country East and West will have its line of rail. Minnesota begins to show the same sort of enterprise. There are railroads in the two lower tiers of counties; another in the fourth tier, and another in the fifth. The North Pacific and St. Cloud and Pembina Railroads will open other and large portions of the State, and of the region beyond. Of the lines in progress or projected, one is from St. Paul via Sioux City to the Union Pacific Railroad, west of Omaha. As to the North Pacific Road, the correspondent suggests that an eligible route would be on latitude 46 degrees, crossing the Missouri River near the northern boundary of the Sherman-Harney Sioux Reservation, crossing the Yellowstone at the mouth of the Big Horn, and thence west near Helena, in Montana, and through the Hell Gate Pass to the Rocky Mountains to the channel of the Columbia River.

A meeting was held at Leavenworth on July 14th to organize the Leavenworth and Gulf Railroad. The people of the counties interested in the road are in earnest, and the work will be speedily undertaken and accomplished. Many leading capitalists are among the incorporators, and the scheme is one that will command the co-operation and support of the people of a large and important section of country.

—The net profit of the Great Western Railway Company of Canada for the three months ending April 30, 1869, available for dividend (after deducting interest charges loss by exchange, &c.) is \$31,710 78 against \$79,191 45 in the corresponding period of 1868.

### EARNINGS OF PRINCIPAL RAILROADS.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, July 16.

The intense heat of the past few days, and the absence of a large number of business men in the country, have reduced trade to small limits, except in a few specialties which are favored by some temporary influences. We are now in the midst of the "dull sea-on" in business, with little reason from any circumstances to expect more than the usual course of trade in the next few weeks.

Cotton has been variable in tone, but without important change in prices. Breadstuffs without change of moment, but favor buyers, except in Corn. Groceries doing better, and Sugars materially advanced. Tobacco easier and active. Hides and Leather quiet and scarcely so firm. Petroleum has been depressed by reports of increased production, but at the decline has closed quite active. Naval Stores are held firmer in anticipation of a decline in ocean freights, with more doing at the close. Oils show some variations, but remain quiet.

East India Goods are steady, with more doing in Manila Hemp and Calcutta Linseed, the latter bringing a small advance. Metals generally are taking a stronger turn, but without activity.

Tallow has been active for export and firmer. Hops still tend upward; receipts are large for the season, and the growing crop promises well, but the export demand is unprecedented in our commerce. Hay in large supply and steady. Whiskey has advanced, with more doing. Building Materials firm and active. Fruits active and firmer for Raisins, but otherwise dull for dried and very irregular for fresh, whether foreign or domestic. Fish are nearly nominal.

Wool is firm. The trade sale yesterday was not a fair test of the market. It had the appearance, both from the terms and from the offering, of being designed to depress prices in the interest of manufacturers, who are now anxious to purchase.

Freights were fairly active early in the week, but a check to supplies of grain through the canal causes a quiet, closing dull with rates somewhat depressed.

Provisions show no decided change in hog products. They are generally firmer, though above export orders, but the offerings are quite limited. The receipts of Swine have fallen off; there was some movement in Beef early in the week, and the close is firmer, though again quiet. Butter and Cheese are in brisk demand for shipment, and bring very full prices.

Receipts of Domestic Produce for the Week and since Jan. 1.

The receipts of domestic produce for the week and since Jan. 1 and for the same time in 1868, have been as follows:

## COTTON.

FRIDAY, P. M., July 15, 1869.

By special telegrams received by us to-night from each of the Southern ports we are in possession of the returns showing the receipts, exports, &c., of cotton for the week ending this evening, July 16. From the figures thus obtained it appears that the total receipts for the seven days have reached 3,564 bales, (against 4,643 bales last week, 5,200 bales the previous week, and 9,440 bales three weeks since,) making the aggregate receipts since September 1, 1868, up to this date, 2,324,109 bales (of which 241,000 bales are overland shipments direct to the mills), against 2,343,353 bales (of which 175,000 bales are overland shipments), for the same period in 1867, being an excess last season over this season of 19,244 bales. The details of the receipts for this week (as per telegraph) and the corresponding week of 1868 are as follows:

The exports for the week ending this evening reach a total of 2,079 bales, of which 2,062 were to Great Britain, and 17 bales to the Continent, while the stocks at all the ports as made up this evening, are now 41,722 bales. Below we give the exports and stocks for the week, and also for the corresponding week of last season, as telegraphed to us by our own correspondents at the various ports to-night:

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is a decrease in the exports this week of 2,138 bales, while the stocks to-night are 41,391 bales less than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports since Sept. 1, according to the latest mail returns. We do not include our telegrams to-night, as

we cannot insure the accuracy or obtain the detail necessary by telegraph.

\* Under this head we have added the overland shipments direct to manu factories to April 24, as follows: for the present year 241,000 bales, and for last ye ar 175,000 bales.

The market the past week has been quiet, and with very little change in prices from day to day. Spinners appear now to be less anxious purchasers, having laid in fair stocks, and having also reduced consumption somewhat on account of the high prices of the raw material and the present lifeless condition of the goods trade. Holders, however, in view of European wants for the remainder of the year, feel very confident and show no disposition to force sales. At one time during the week prices were a shade off, but they quickly returned again on a slight improvement at Liverpool, accompanied with a little increase in the spinning demand here. On Saturday and Monday the market was very quiet buyers purchasing only in a very limited way, the total sales for the two days reaching only 1,423 bales (about evenly divided between spinners and speculators,) but prices remained without change. Tuesday the quotations were a shade off, middling uplands being quoted at 34½c, but at the decline spinners and speculators bought more largely and more eagerly. Next day (Wednesday) the increased inquiry and a slight improvement at Liverpool brought prices back to the old point. Since then there has been little doing, and to-day the close is very quiet but steady, quotations being unchanged. For forward delivery the inquiry has been very active through the week, the total sales reaching 6,900 bales, all low middling, or on the basis of low middling, of which 100 were for July at 33c, 100 for August at 33½c, 100 for September at 31c, 300 for October at 29c, and 100 for October at 28½c, 400 for November at 27c, 250 for November at 27½c, 950 for December at 26½c, 600 for December at 26½c, 600 for December at 26c, and 500 December and January at 26½c, and the balance for November, December and January on private terms. The total sales for immediate delivery this week foot up 8,623 bales, of which 4,428 bales were taken by spinners, 4,195 bales on speculation, and the following are the closing quotations:

THE GROWING CROP.—There has been a continuance of good weather in most of the cotton growing districts the past week, but still the reports are not so universally favorable as for the previous six weeks. We hear complaints of a flood in Texas, of limited proportions, and of too much rain in some other quarters. Not that any particular damage has as yet been done to the crop, but these reports are remarkable as being the first words of evil we have heard with regard to the growing plant for almost two months. It is, however, a very favorable indication that we have received no information as yet of the appearance of the caterpillar. Some say that the bottom crop is now beyond its reach. If this should prove so, it marks a decided difference between this season and last season; for it will be remembered that in 1868 the early crop was destroyed by the caterpillar in a large portion of the South. The losing or saving of this bottom crop is of great importance, not only as affecting the total yield, but especially as influencing the early receipts. If it is saved, the early receipts cannot fail, we think, to be in excess of last year.

WANTS OF OUR SPINNERS.—On the 26th of June we showed that the actual wants of spinners from June 18 to August 31 would not proba-

bly exceed 71,000 bales. That estimate was based upon figures which appear to be confirmed by the returns of the Cotton Manufacturers Association, as we gave them last week. Since June 18 it would seem that the spinners have taken about 48,126 bales from the ports, not counting what they may have received overland direct. This is made evident from the following statement:

Stock at the ports June 18.....	bales.	90,610
Receipts week ending June 25.....		9,440
"    "    "    July 2.....		5,700
"    "    "    July 9.....		4,643
Total Supply.....	bales.	109,893

This supply has been distributed as follows. The weekly exports we make up from mail returns:

Exports week ending June 25.....	bales.	7,931
"    "    "    July 2.....		6,807
"    "    "    July 9.....		5,075
Stock at ports July 9.....		66,767

Showing that spinners have taken from the ports..... bales. 48,126

How much they have received direct is a mere matter of conjecture; we should say not to exceed one or two thousand bales. The Boston Post of yesterday estimates that spinners have taken an additional 42,935 bales, which it designates as being *in transitu* on the 18th of June, and in that manner credits the mills with an accession of over eighty thousand bales since the date named. A moment's examination of his own figures will, however, convince the writer, we think, that he has been a little too hasty; for, by his process, he not only counts the cotton in the decrease of Southern stocks, but counts it again when it arrives at the Northern ports. There was, of course, some small amount *in transitu* on the 19th of June (for which allowance was made in our previous estimate), but not by any means 42,935 bales. Our spinners will need about 30,000 bales more before September 1st if they do not decrease their consumption.

The exports of cotton this week from New York show a decrease from last week, the total reaching 43 bales, against 990 bales last week. Below we give our table showing the exports of cotton from New York, and their direction for each of the last four weeks; also the total exports and direction since September 1, 1868; and in the last column the total for the same period of the previous year:

**SHIPPING NEWS.**—The exports of cotton from the United States this past week, as per latest mail returns, have reached 5,075 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the CHRONICLE last Friday, except Galveston, and the figures for that port are the exports for two weeks back. With regard to New York, we include the manifests only up to Tuesday night, to make the figures correspond with the official week. Below we give a list of the vessels in which these shipments from all ports, both North and South, have been made:

**EUROPEAN AND INDIAN COTTON MARKETS.**—In reference to these markets, our correspondent in London, writing under the date of July 3, states:

LIVERPOOL, July 3.—A large business has been transacted in cotton this week, and a further rise has taken place in prices. American cotton has risen ½d; Brazilian ½d, Egyptian ½d, and East Indian ½ to ¾ per lb. The total sales of the week are 102,200 bales, of which 11,380 bales are on speculation; 18,640 bales are declared for export, leaving 72,230 bales to the trade.

The transactions "to arrive" continue on a large scale, at prices corresponding to the general advance. The latest quotations are: American, basis of Middling, from Savannah, ship named, 12½d; New Orleans, late May sailing, 12½d; Low Middling, ship named, 12½d; Texas, ship named, 12½d; Dharwar, fair new merchants, May sailing, 10½d fair, March sailing, 10½d; Dhollerah, fair new merchants, May-June sailing, 10 1-16d; June, 10d; ship named, 10½d; Comrawuttee, fair new merchants, April sailing, 10½d; March, 10½d; Comptah, fair new merchants, June sailing 9½d; Bengal, fair new merchants, early May sailing, 8½d@8 9 16d; March sailing, 8½d; Rangoon, fair new merchants, March and April sailing 8½ per lb. The following are the prices of American cotton compared with last year's:

## TOBACCO.

FRIDAY, P. M., July 16, 1869.

There is a considerable decrease in the exports of crude Tobacco this week, the total from all the ports reaching 2,904 hhds, 256 cases and 327 bales, against 6,531 hhds., 559 cases, 491 bales, 47 hhds. stems, and 56 tierces for the previous seven days. Of these exports for this week, 1,269 hhds., 256 cases and 327 bales were from New York, 813 hhds. from Baltimore, 11 hhds. from Boston and 851 hhds. from New Orleans. The direction of the shipments of hhds. was as follows: To Bremen, 989 hhds.; to Marseilles, 825; to Liverpool, 309; to London, 127; to Antwerp, 126; to Valencia, 313, and the balance to different ports. During the same period the exports of manufactured tobacco reached 193,247 lbs., of which 123,000 lbs were to Liverpool. The full particulars of the week's shipments from all the ports were as follows:

The market for Tobacco the past week has been active, but at rather easier prices for leading grades.

Kentucky Leaf has been rather pushed for sale, in view of the liberal receipts and the stringency of the money market. The sales of the week amount to about 2,000 hhds., mainly for export, but including a few hundred hogsheds for home consumption. Prices have been mainly in the range of 7½c to 14½c for common to good.

Seed Leaf has also been more active, stimulated by some concession on the part of holders, the business being about equally divided between shippers and home consumption. The sales embrace 55 cases Ohio, crop of 1868, 11½c; 120 cases Connecticut, crop of 1868, 14½c; 62 cases State fillers, 9c; 44 cases Connecticut, crop of 1866, 15½c; 30 cases Connecticut fillers, crop of 1866; 9½c; 69 cases Connecticut wrappers, crop of 1868, 38c; 33 cases old State wrappers, 20c; also, 54 cases new Ohio seconds and fillers, 55 cases Connecticut, 116 cases Connecticut fillers and binders, 100 cases Connecticut, crop of 1868; 400 cases Ohio fillers, and 150 cases Pennsylvania, crop of 1868, all on private terms.

Spanish Tobacco is quiet; 150 bales Havana have been sold in lots at 95@110c.

Manufactured Tobacco is in moderate demand and very firm.

BREADSTUFFS.

FRIDAY, July 16, 1869, P. M.

The market for Breadstuffs the past week has shown a feverish tone, but the fluctuations in prices have been but moderate.

Flour came forward more freely, and largely in excess of previous years at this season. The South is contributing freely to our supplies from her excellent and large crop of New Winter Wheat. We have had spirts of speculation in Extra State, and early in the week there was more export demand; but latterly, with a decline in Liverpool, this has subsided, and speculators are less disposed to operate. But the offerings are not sufficiently large to exert an important influence, and the decline is but slight from the highest point of the week. The close was at \$6 70 @ 6 75 for good lines of Extra State. Rye Flour and Cornmeal have materially advanced. The Wheat market has been unsettled and variable. The receipts from the canal were interrupted on Thursday morning, and holders became very firm; they looked for a decline in ocean freights to make good the decline abroad, and the lower rate for gold; but as there was but little freight room on the berth, and as liberal supplies will be due next week, business was checked, except a slight decline in prices. Some speculation has been developed on Western account. The weather at the Northwest this month has been quite unfavorable to the growing crop. The growth of Winter Wheat this year, however, has never been equalled in quality or quantity in the United States, and promises to exert an important influence upon prices. To-day's market was quiet but firm on reports of bad weather at the West. A few loads of Prime No. 2 Spring were taken for export at \$1 50. Corn has arrived fairly, and the stock in store has increased. But the growing crop looks badly, except in the more Southern latitudes, and there is much speculative confidence in the article, favored yesterday by an advance of a shilling per quarter in Liverpool, although we are still considerably above a shipping point. The market in the Eastern and Middle States has materially improved, but those States are not important for their corn crop.

Oats have declined under the liberal stock and excellent prospect of the new crop, closing active to the trade. Rye has been rather more saleable. Barley Malt has also slightly improved. Canada Peas remain entirely nominal.

GROCERIES.

FRIDAY EVENING, July 16, 1869.

The course of business in Groceries during the week under review has been in the general direction of a better trade, and accompanied in some instances by higher prices. The price of gold has gradually advanced, and a partial reaction from the dull trade of last week has taken place, and with these and the influences incident to each department by itself, the tone of the market has become decidedly firmer, and a more encouraging prospect opened.

Sugars have been decidedly more active, and an advance obtained on both refining and grocery grades, which promises to be permanent. Refined Sugars have been buoyant, and their rapid improvement has in fact created the improvement in raw.

Molasses has been rather quiet, but firmly held by importers at fully sustained prices.

Coffee has met with a good demand, and a steady trade has progressed throughout the week at the prices current at the date of our last report.

Teas have been very quiet, and the limited sales made have been at unsettled prices.

The imports of the week in Coffee have been very light, but one cargo having arrived of Rio, one of Maracaibo, and some few small lots besides. Of Molasses the receipts have decreased; but of Sugar they continue liberal and beyond the average. Only a few packages of Tea by the steamers have been received.

The imports at New York for the week, and at the several ports since January 1, are given below under the respective heads. The totals are as follows:

## TEA.

The market has exhibited no particular degree of strength or life. Sales have been made in a quiet way of small lots, but there has been no vigor in the demand, and without any notable decline prices have been unsettled and wanting in firmness. Sales include 2,186 half chests of Greens and 1,400 do of Japans.

The only imports of Tea have been 47 packages from Bremen, per steamer Deutschland.

The following table shows the shipments of Tea from China and Japan to the United States from June 1, 1868, to May 12, 1869 the date of latest advices by mail; and importations into the United States (not including San Francisco), from Jan. 1 to date, in 1868 and 1869.

Total .....	42,189,777	33,302,647	30,523,348

The indirect importations since Jan. 1 now reach 16,587 pkgs, against 6,057 last year.

## COFFEE.

The market has been steady, and a fair demand has existed throughout the week. There has been no sufficient animation, however, to create any advance in prices, and the market closes quiet at the same list of prices current at the date of our last. Within a day or two there has been more inquiry for Maracaibo, arising from rumors of the blockade of that port, and with an increased demand, some improvement in this description has taken place. Other West Indian Coffees are unchanged. Sales comprise 16,822 bags of Rio, 1,010 do of Santos, 3,993 do of Maracaibo, and 63 do of Laguayra.

Imports of the week have been very light, including of Rio Coffee, only one cargo by the "Margaret Powrie," 4,800 bags. Of other sorts the receipts have been 2,586 bags of Maracaibo, per "Spring Bird," and 313 bags of sundries.

The stock of Rio July 15, and imports since Jan. 1, are as follows:

## SUGAR.

Since the date of our last report there has been a marked improvement in the activity of the market for Raw Sugars, taking its rise from the increased demand from refiners, who have found a ready and rapidly strengthening market for their own products. Importers have been able to establish a settled advance of 4c per lb on refining grades and a 4c on groceries. Receipts have been liberal, and the increased sales of the week have made no impression upon the accumulation of stock here, sales being mainly from stock not yet warehoused. Refined Sugars have been active and buoyant, and have steadily advanced 4c on the better and 4c on the lower grades marking the improvement since our last. Sales include 5,809 hhds of Cuba, 605 do Porto Rico, 517 do of Martinique, and 167 do of various other kinds, with 9,359 boxes of Havana and 2,633 bags of St. Domingo.

Imports for the week at New York, and stock on hand July 15, were as follows:

## MOLASSES.

There has been a quiet trade during the week, which has not shared

to any extent in the animation prevailing in the market for sugars, but prices are firmly supported and holders are not offering their stocks with any eagerness. For the time being purchasers of all kinds seem fully stocked. Sales include 352 hhds of Cuba, 345 do Porto Rico, 220 do Barbadoes, and 85 do of other kinds.

The receipts of the week at New York, and the stock on hand July 15, were as follows:

## SPICES.

There has been the usual jobbing trade of fair extent for the season, but no movement of importance has transpired. Mace is firmly held at \$1 15, and but little could be bought at that. Some transactions in cloves destined for export are in progress, and will include some 1,000 bags. Our list of prices upon revision stands unchanged.

## FRUITS.

In foreign dried fruits there has been a considerable movement in Layer Raisins, on speculative account, one sale has been made yesterday and to-day of 50,000 boxes at \$2 75 @ \$2 85, now held very firmly at an advance on the latter price. Almonds are also in better demand and firmer. Turkish Prunes drag at the moment at rather lower prices, and we notice a decline also in Sardines and Brazil Nuts. In domestic dried there has been a fair business done, notwithstanding the influx of domestic green fruit. Southern dried Apples are bringing 9 @ 4c, the latter for prime, and State do 15c. Peaches are very quiet. In foreign green from the Mediterranean the amount of sound fruit saved from the receipts is light, and when selected and repacked at the stores is held at very firm prices. Palermo Lemons at \$8 00 @ \$9 00, Menton do at \$9 00 @ \$10 00, and Palermo Mountain Orange at \$8 00 @ \$8 50. West Indian comes in freely, and are jobbing at \$2 00 @ \$3 00 per bunch for Bananas. Baracoa Coconuts at \$35 per M. Sugarloaf Pineapples \$17 @ \$18 per C for Havana.

## THE DRY GOODS TRADE.

FRIDAY, P. M., July 16, 1869.

The market during the past week has ruled quiet but very firm. The continued warm weather has appeared to exert a depressing influence in all departments of trade, and a general activity in dry goods can hardly be looked for before August. A slight movement, hardly worth mentioning, however, has accrued in flannels and some other goods from the operations of a few dealers from the Pacific Coast, but this has not affected other fabrics than those immediately dealt in.

Anticipations for a good business in August appear to be very general, and there is hardly a doubt but that an increasing demand for nearly all staple fabrics will be developed from that date for the Fall trade.

The exports of dry goods for the past week, and since January 1, 1869, and the total for the same time in 1867 and 1860 are shown in the following table:

We annex a few particulars of leading articles of domestic manufacture, our prices quoted being those of the leading jobbers:

BROWN SHEETINGS AND SHIRTINGS are unchanged. All brands are held firmly, and few concessions are offered. Some few brands are being offered by jobbers at rates slightly below agents. Agawam F 36 inches 13, Albion A 36 12, Amoskeag A 36 16, do B 36 16, do Z 36 12, Atlantic A 36 17, do H 36 16, do P 36 13, do L 36 14, do V 33 13, Appleton A 36 16, Augusta 36 15, do 30 13, Bedford R 30 10, Boot H 27 11, do O 34 12, do S 40 14, do W 45 8, Commonwealth O 27 8, Grafton A 27 9, Graniteville A 36 15, do EE 36 15, Great Falls M 36 13, do S 33 12, Indian Head 36 17, do 30 13, Indian Orchard A 40 15, do C 36 14, do BB 36 13, do W 34 12, do NN 36 15, Laconia O 39 14, do B 37 14, do E 36 13, Lawrence A 36 13, do E 36 14, do F 36 14, do G 34 12, do H 27 11, do LL 36 13, Lyman C 36 14, do E 36 17, Massachusetts BB 36 14, do J 30 12, Medford 36 15, Nashua fine 36 14, do 36 16, do E 39 18, Newmarket A 13, Pacific extra 36 16, do H 36 16, do L 36 14, Pepperell 6-4 —, do 7-4 30, do 8-4 37, do 9-4 45, do 10-4 52, do 11-4 57, Pepperell E fine 39 15, do R 36 14, do O 33 13, do N 30 12, do G 30 13, Pocasset F 30 10, do K 36 13, do Canoe 40 16, Saranac fine O 33 14, do R 36 15, do E 39 17, Sigourney 36 16, Stark A 36 16, Swift River 36 12, Tiger 27 9, Tremont M 33 11.

BLEACHED SHEETINGS AND SHIRTINGS are sold pretty well up, although no considerable activity is anticipated for some weeks yet in this line. Higher rates will probably range as soon as the season opens, unless the market for the raw material should take a sudden decline. Amoskeag 46 20, do 42 19, do 54 26, do A 36 17, Androscoggin L 36 18, Appleton 36 18, Attawaugan XX 36 14, Atlantic Cambric 36 26, Ballou & Son 36 15, do 31 12, Bartlett's 36 16, do 33 15, do 31 14, Bates XX 36 19, do B 33 14, Blackstone 36 15, do D 36 14, Boot B 36 16, do C 33 14, do E 36 13, do H 23 11, do O 30 13, do R 23 10, do L 36 16, do W 45 19, Dwight 40 21, Ellerton E 42 19, do 27 —, Forrest Mills —, Forestdale 36 17, Fruit of the Loom 36 19, Globe 27 8, Gold Medal 36 15, Greene Mfg Co 36 12, do 31 11, Great Falls K 36 15, do J 33 13, do S 31 13, do A 33 15, Hill's Semp. BROWN DRILLS are scarce, and such stock as is on hand is firmly held. Amoskeag 17, Boot 17, Graniteville D 16, Laconia 17, Peppers 17, Stark A 17, do H 15.

PRINTS are quiet and unchanged. Allens 12, American 13, Amoskeag 12, Arnolds 10, Cocheco 14, Conestoga 12, Dunnell's 12, Freeman 10, Gloucester 12, Hamilton 13, Home 8, Lancaster 12, London mourning 12, Mallory 13, Manchester 12, Merrimac D 12-13, do pink and purple —, do W 15, Oriental 12, Pacific —, Richmond's 12-13, Simpson Mourning 12, Sprague's purple and pink 14, do blue 14, do shirtings 14, Wamsutta 9.

PRINT CLOTHS are steady, and firmly held. Considerable speculation is going on in this line, and printers have stopped buying as far as possible, except for immediate wants. These goods are sold now generally on 30 days credit. Prices range from 7 to 9, the last for 64x24 standard.

GINGHAMS are firm and unchanged. Allamance plaid 18, Caledonia 14, Earlston 22-25, Glasgow 16, Hampden 16, Lancaster 17, Manchester 13.

MUSLIN DELAINES are about closed out of the market, and prices are unsettled. Hamilton 15-20, Lowell 15-20, Pacific Armures —, do Alpacas 3-1 25, do 6-4 26, Pekins 22, Oriental Lustres 18.

TICKINGS are quiet, with prices about the same as in our last report. Albany 11, American 14, Amoskeag A C A 36, do A 30, do B 25, do C 23, do D 21, Blackstone River 16, Conestoga 26, do extra 31, Cordis AAA 31, do BB 17, Hamilton 27, do D 21, Lewiston 23 35, do 32 30, do 30 25, Meck. and W'km's 29, Pearl River 33, Pemberton A 26, do E 18, Swift River 17, Thorndike 18, Whittenden A 22, Willow Brook 28, York 30 27, do 32 33.

STRIPEs are unchanged, though somewhat firmer. Albany 11, American 14-15, Amoskeag 23-24, Boston 15, Everett 13, Hamilton 22, Haymaker 16, Sheridan A 14, do G 15, Uncasville A 16, do B 15, Whittenton AA 22, do A 20, do BB 17, do C 15, York 22.

DEINIS are in about the same condition as reported last week. Albany 12, Amoskeag 31, Blue Hill 13, Beaver Cr. blue 26, do CC 13, Columbian heavy 31, Haymaker Bro 18, Manchester 20, Otis AXA 28, do BB 26, do CC 21, Pearl River 30, Thorndike 19, Tremont 19.

FLANNELS are slightly active, under a demand for the California market. Belknap shirting 42, Caledonia do 32, Gilbert's opera 57, Rob Roy rolled 6-4 80, Dexter 35.

CORSET JEANS are firm and steady, at quotations. Amoskeag 15, Androscoggin 13, Bates 12, Everett 15, Indian Orch. Imp 13, Laconia 15, Naumkeag 15, Newmarket 14, Washington satteen 18.

CAMBRICS are in demand, and are in most instances sold ahead by agents. Messrs. Garner & Co. have put a new line of these goods on the market. Amoskeag 10, Portland 7, Pequot 10, Victory H 9, do A 10, Washington 10.

COTTON BAGS are firmly held, although the demand has slightly fallen off. American \$45, Androscoggin \$45, Arkwright A \$45, Great Falls A \$47, Lewiston \$47, Ludlow AA \$47, Ontario \$47 50, Stark A \$47 50, do C 3 bush \$65, Union A \$32.

COTTON YARNS AND BATIS have improved slightly, and are held firmly at the advanced rates. Best Georgia Cotton Yarns Nos. 6 to 12 40, Best South Carolina small skeins 41.

SPOOL COTTON is quiet, at the advance stated in our last report. Brook's per doz. 200 yards 90, J. & P. Coat's 90, Clark, John, Jr. & Co. 90, Clark's Geo. A. 90, Willimantic 3 cord 52, do 6 cord 80, Stafford Brothers 45, Green & Daniels 47, Parker Bros 3 cord 42, Glasgow 45, Hadley 76, Holyoke 47, Orr & McNaught 85, Pitchers 42.

WOOLENS are in better condition. Low priced goods have been in considerable request, and fine goods also have moved more freely. Appearances indicate a better business in this line than during the past season.

FOREIGN DRESS GOODS are quiet. The season for these goods will not probably open before late in August. Light fabrics are about closed out, and such as are left on hand, are being offered at a considerable reduction from past rates. The last season's business in these goods was rather disastrous as regards the opening importation, and importers are, as a general thing, disposed to be more cautious for the coming fall trade.
